

## GT MASKING PASTE

### Product Specification

**Product Code:** GT114WMP

*GT Masking Paste* is water miscible off-white creamy paste used to coat the stencils used when spraying symbols onto roads or carparks. The *GT Masking Paste* does not form a completely dry film and this makes the cleaning of the stencil an easy operation.

#### Uses

The main use of *GT Masking Paste* is to coat stencils so that they can be easily cleaned. However it can be used to protect application equipment from over spray or spills.

#### Physical Characteristics

Colour : off-white  
Appearance : creamy paste  
Volatile Organic Compound (VOC) Content : nil

#### Application

Apply by brush a coat of *GT Masking Paste* to cover the area of the stencil that is to be protected when the stencil needs cleaning. This can be achieved with use of a paint scraper.

#### Clean-Up

*GT Masking Paste* is water miscible and can be removed with water.

#### Transport

*GT Masking Paste* is not classified as dangerous goods by the Australian Code for the Transport of Dangerous Goods by Road or Rail (ADG Code).

#### Storage

Store under cover or in well shaded area. Rotate stock and use within six months of the date of manufacture.

#### Packaging

10 Litre plastic pail
